

Rubon®

At Rubn, one purpose drives us: making the world's best lighting, without compromise. We build lighting for grand interiors and everyday living, for private and public spaces.

Rubn was founded in 2010 by designer Niclas Hoflin. We are a family company, run by Fabian Hoflin, that with the greatest attention to precision, detail, and material manufactures lamps to last for a lifetime.

The spirit of Rubn is in every handmade piece, crafted in our factory in Sweden. Discover our family business, the production, and a selection of our lighting.
